Subject: Passenger Railcars Change Order #39
SPO Determination on Recommendation

As the State Purchasing Officer for the Illinois Department of Transportation, I offer the following.

As part of the California led Passenger Railcars Contract (75A0362), change order #39 allows a change to the workstation table design on the single-level cars that were procured by the Department. While the previous design met the specifications set by the contract, the FRA wanted an updated design that was compliant with American Public Transportation Association (APTA) which had not yet been designed or tested and required the manufacturer to provide the updated design in order to meet the requests set by the FRA during design review.

Change order #39 is for \$802,809.92.
