

NOTES

Traffic Control consists of all Standards to be paid as LUMP SUM per Section 701.
 Road Drainage is to be maintained during construction. Temporary culvert crossings may be required in accordance with Section 616.

Seeding Class 7 (Temporary) may be required as directed by the Engineer, up to 22.6 ACRE.

Kathleen Road, north of Yellow Brick Road, and Sourgum Road, the north/south portion, have been identified for use for this project's material hauling under the jurisdiction of the Perry County Highway Department. See Special Provisions for the Road Use Agreement that will be required. Compliance with the regulatory and permitting requirements of local road authorities is required for the satisfactory performance of the contract.

The Contractor shall notify in advance and coordinate with the Perry County Highway Engineer, Brian Otten, any temporary closure of Sourgum Road.

Refer to Sections 107.14, 107.15 and 170.16 of the Standard Specifications for the maintenance of traffic and public roads.
